Contactually 101: Step 3………. Set up internet lead tracking

Let's set Contactually to automatically bucket your internet leads according to source. Go to settings, under your picture in the top right hand corner. In settings go to Lead Capture on the left about halfway down. Check the box at the top indicating you want Contactually to automatically bucket these leads and select the correct bucket next to each lead source. To the right of Remax select Remax.com Leads and so on.
